

Texas State Organization

The Delta Kappa Gamma Society International

2019- 2020 TSO Annual Report
Cathryn Burke Area 8 Coordinator
(Iota Upsilon Area 8)

Goals:

1. Visit all 11 chapters over the two year period.
2. Set up events so Area 8 sisters can make connections across our area.
3. Encourage quality programs and projects.
4. Strive to make sure each member understands her purpose in our society.
5. Work to fill our chapters with new sisters eager to serve.
6. Plan for the Area 8 workshop.

Accomplishments and Activities Related to goals:

1. I have visited Beta Nu, Tau, and Epsilon Chi as well as my own chapter, Iota Upsilon. Lambda is on the schedule for April. It is my hope to visit Lambda Psi before June as well. In addition to visits, I have set up a REMIND "class" of Area 8 presidents for easy texting. There has been a positive response to these texts, more so than from newsletters.
2. We had one get together lunch in the Waco area on October 5. Eight attended. We will schedule one for the spring as well.
3. With the visits I have made so far, this goal has not been worked much. I plan to use the database set up by Lisa Yates, chair of the Programs/Projects committee, to help the new slate of officers plan quality programs. I have tried to highlight different programs and projects in my monthly newsletter.
4. I realize now that this is a non-measurable, lofty goal. But it does tie in with my comments about our area below.
5. The membership plan was used at the Tau meeting. I will also use it with Lambda and Lambda Psi.
6. A location has been obtained, McLennan Community College in Waco. A budget has been developed and I am in the process of planning the schedule, assigning jobs, inviting speakers as well as distributing registration forms.

Suggestions to Area:

Our area has an aging membership and our numbers are falling. I believe it is important for all chapters to use the membership plan in combination with highlighting the benefits DKG can provide for new members.
