

12 Founders of DKG (Twelve Days of Christmas)

1. Dr. Annie Webb Blanton saw a need for a Society
DKG for our women teachers

2. Cora Martin said we needed - some music to lift us up
a catchy little song, and

3. P.E. teacher Anna Hiss said we needed to be fit
lots of bouncing b-balls,

4. Lalla Odom taught Will Rogers and battled for our rights
contracts for married teachers,

5. Mamie Bastian said we needed- to celebrate our birth
Happy Birthday luncheons

6. A great teacher was Lela Lee in the Dallas ISD
a work, study, play plan

7. Mabel Grizzard studied items- that had historical value
she wrote English workbooks

8. Ray King taught high school history in the city of Fort Worth
loved to count the money

9. Helen Koch left Texas and started Lambda State
studied child psychology

10. Through her detailed planning Ruby Cole established many libraries
interested in restoring missions

11. Ruby Terrell Lomax loved traditions- and all the ceremonies
taught classical languages

12. Sue King loved to travel & hike, and teach high school Latin
we lost her way to soon

The Legend of Delta Kappa Gamma

Nancy: Once upon a time in 1929, when the world was young and people were happy, there was no ERA, no Roe vs. Wade, and no one had heard the words "Covid pandemic"! Everyone knew that men were better qualified for all jobs; it was all right for them to make more than women for the same work; and "the little woman" kept her mouth shut as she smiled.

Holly: But twelve "wild-eyed rebels" had a vision of a different system. They could see a vast army of women around the world who took their places shoulder to shoulder with men throughout the field of education--equal but different. They could see this army uniting with women everywhere, supporting each other, recognizing women's achievements, helping each other financially through scholarships and grants, encouraging leadership qualities, and working together to advance the cause of women.

Jo: They met in a large house in Austin, Texas; and plotted to change the world. What began there, a tiny flame, would be nurtured and fanned so that its warmth would spread. Gradually the numbers grew. All across the state of Texas and then the nation women embraced the precepts of this group and proudly wore the key which represented it. Thousands of women came to be included; the torch was passed to each generation of teachers in America, and eventually qualified women in 17 other countries joined with them.

Nancy: Ninety-two years later, you and I enjoy the progress and the benefits of this great vision, and somewhere, in that great Teacher Retirement Home in the sky, our struggles and agonizingly slow forward movement are watched and cheered by:

{**Holly** read names. **Jo** say "dreamer" after each name is called. Spoken with affirmation and respect. **Members** will hold up their pictures. Continue holding them up till all 7 Purposes are read.}

Annie Webb Blanton; dreamer; Mamie Sue Bastian, dreamer; Ruby Cole, dreamer; Mabel Grizzard, dreamer; Anna Hiss, dreamer; Ray King, dreamer; Sue King, dreamer; Helen Koch, dreamer; Ruby Terrill Lomax, dreamer; Cora Martin, dreamer; Lalla Odom, dreamer; Lela Lee Williams, dreamer.

Nancy: These 12 women were dreamers and look at what they accomplished! When you began teaching, you were a dreamer too, dreaming of what you would be able to do as an educator and influencer of the next generation.

Holly: Twelve dreamers in 1929 committed to the Seven Purposes of the Society which have moved the organization forward for 92 years. Today, as the Purposes are read, reflect upon the meaning they have for each of us, personally and professionally.

Jo: To unite women educators of the world in a genuine spiritual fellowship.

Nancy: To honor women who have given or who evidence a potential for distinctive service in any field of education.

Holly: To advance the professional interest and position of women in education.

Jo: To initiate, endorse and support desirable legislation or other suitable endeavors in the interests of education and of women educators.

Nancy: To endow scholarships to aid outstanding women educators in pursuing graduate study and to grant fellowships to non-member women educators.

Holly: To stimulate the personal and professional growth of members and to encourage their participation in appropriate programs of action

Jo: To inform the members of current economic, social, political, and educational issues so that they may participate effectively in a world society. Thank you, sisters, and holders of the dreamers.

(members put down pictures of Founders)

Nancy: These 7 Purposes, reflected in the tradition of the society, are symbolized by ...

...Roses and the color gold that signify beauty of spirit and dedication to excellence.

Holly: The wreath of laurel leaves that represents achievements;

Jo: The color crimson that stands for courage to achieve success and attain leadership in our profession.

Nancy: The cup that represents knowledge

Holly: The lamp and open book that represent wisdom and scholarship.

JO: The golden ellipse that represents the work of each member for the good of all.

Nancy: In recalling our dedication to the ideals of our Society, let us renew our commitment to Society Purposes. Let us rededicate ourselves to our mission to "promote the professional and personal growth of women educators and excellence in education." Let us more actively support the programs, projects and policies and do our best to fulfill our responsibilities of membership in The Delta Kappa Gamma Society International.

Holly: Please repeat after me:

We, the members of Iota Pi Chapter, **(pause for repeat)**

Offer our cooperation, encouragement and friendship **(pause)**

To our fellow members of Delta Kappa Gamma **(pause)**

We promise to help carry out the purposes of the Society. **(pause)**

This is my pledge. **(pause)**

Jo: Thank you. As we move toward celebrating 50 years of dreams and accomplishments may we each remember and honor our pledge made tonight.

**Dr. Annie Webb Blanton – The Heart of the Society of its Members (Skit)
Area 10 Luncheon – February 13, 2016**

SCRIPT

Cast:

Annie Webb Blanton: Marian Clinton

Anna Hiss: Jeanette Rhyan

Mabel Grizzard: Patti Belknap

Lalla Odom: Connie Rensink

Mamie Sue Bastian: Nancy Newton

ASTE: Nancy Newton

Helen Koch: Marilyn Gregory

Cora Martin: Lee Larkin

Shelly Samuels: Question to Cora Martin

Janet Helmkamp: Area 10 Coordinator

Annie Webb Blanton: Excuse me! Excuse me! I'm looking for Dr. Marian Clinton. Is she here?

Janet Helmkamp: Well, we are looking for her as well. She is supposed to be our guest speaker this afternoon.

Annie Webb Blanton: Who are you my dear?

Janet Helmkamp: My name is Janet Helmkamp and I'm Area 10 Coordinator in Delta Kappa Gamma Alpha State and this is our Area 10 Luncheon and Dr. Clinton is our guest speaker. And what is your name and why are you looking for Dr. Clinton?

Annie Webb Blanton: I'm Dr. Annie Webb Blanton. I was driving in my car "Prudence" in a Time Machine and somewhere over the Land of Lincoln I accidently collided with Dr. Clinton. We had the best conversation. She was dressed kind of funny and her hairstyle was really different, but she was very nice. She told me that she is a long time active DKG member and has been active in her chapter as well as several state committees. She also told me something about being on the the Board of ASTEF (Alpha State Texas Education Foundation). I was excited to hear about all of the positive changes and progress that has been made over the years in Delta Kappa Gamma. We visited a long time about DKG and then I boarded my Time Machine in Prudence and we went our separate ways, but somehow I ended up here where I think she is supposed to be. Oh my, there is no telling where she ended up. Probably where I was supposed to be. What year is this Janet?

Janet Helmkamp: It's February 13, 2016.

Annie Webb Blanton: You mean it has been 86 years since I founded DKG with 11 other outstanding key women educators! Dr. Clinton told me about the progress DKG has made nationally and internationally and about Alpha State President, Marilyn Gregory's state theme "The Heart of the Society is its Members". I understand the goals for this biennium are from the acronym Heart. What is the acronym for HEART?

Janet Helmkamp: The acronym for Heart is Health, Education, Achievement, Reflection and Teamwork.

Annie Webb Blanton: Janet, tell me more about the "H" in Heart?

Janet Helmkamp: Health: to encourage members to practice healthy lifestyles to promote healthier chapters.

Annie Webb Blanton: Health! Just a minute Janet. I have to call Anna Hiss. She will be so excited to hear about this. Excuse me while I make a phone call. I am probably the only person who takes my phone with me. I see some of you are carrying and talking into something that looks like a wallet. What are they holding and talking into Janet?

Janet Helmkamp: It's called an iPhone or a Smartphone. It's portable and small enough you can carry in your handbag or pocket.

Annie Webb Blanton: That's a lot easier than trying to carry this big phone around with me. I carry it everywhere I go. Guess I was a little ahead of my time! Speaking of pockets. I see most ladies here are wearing trousers. Men's trousers?

Janet Helmkamp: No, no they are not men's trousers. We call them slacks or jeans and we wear them everywhere even to school, church and out to dinner. It's been an accepted practice for quite a few years.

Annie Webb Blanton: Well that is progress! Even to school and to church?

Janet Helmkamp: Yes, even to school and church.

Annie Webb Blanton: Awesome! Let's celebrate women! Now I have to call Anna Hiss. Anna if you recall Anna Hiss is one of the founders and she is also the director of women's physical education at the University of Texas. (Ring, Ring)

Anna Hiss: Jeanette Rhyan: Hello this Anna Hiss.

Annie Webb Blanton: Anna, this is Annie and you will not believe where I am and what year it is. I got into a Time Machine and I traveled to the year 2016. I will tell you all about it later. What are you doing?

Anna Hiss: Jeanette Rhyan: Right now I'm working on expanding the playing fields and facilities for women's athletics and planning the construction of a gymnasium. This summer I am planning to tour the country to study physical education facilities and compile plans and sketches. When I'm finished it will be considered a model facility.

Also, I am initiating a bachelor's degree program in the School of Education to train teachers of physical education. I'm working on the curriculum and right now I'm sending physical education majors into the public schools and parks as teaching assistants.

Annie Webb Blanton: Anna, you will be so excited to learn that because of your vision and your hard work here in the year 2016 they have wonderful women's gymnasiums, intramural sports programs for women and a bachelor's degree program as well as advanced degrees in physical education for women.

Janet Helmkamp: Dr. Blanton could I talk to Anna Hiss?

Annie Webb Blanton: Of course. Here's the phone. I don't think your phone will work!

Janet Helmkamp: Miss Hiss, I understand how committed you were committed to DKG and served on a wide range of committees, including Equal Opportunity for Women Teachers and you were chairman of the national committee instrumental in the choice and purchase of the lot for headquarters in Austin. Thank you for setting and providing a strong foundation for us.

Anna Hiss: Jeanette Rhyan: Yes, I was on a number of state and national committees as well as for health, physical education and recreation. I am elated to know that because of my tenacity I was instrumental in the advancement of health and physical education as well as professional degrees in physical education. It was nice talking to you Janet. Take care of Annie!

Annie Webb Blanton: Anna, have you heard from Ray or Sue King or Ruby Terrill Lomax?

Anna Hiss: Jeanette Rhyan: No, Sue King is hiking in the mountains today and will be attending a performance of Greek theatre this evening. Ruby Terrill is accompanying her husband as he researches folklore for the Library of Congress. Ruby has such a great sense of humor! She always makes me laugh. Sue King isn't feeling well.

Annie Webb Blanton: Thanks Anna. Talk to you when I return.

Annie Webb Blanton: The inclusion of Anna Hiss certainly augmented the diversity of educational interests represented when organizing Delta Kappa Gamma. I sought out a broad cross section of the teaching profession when selecting Founders for DKG.

Annie Webb Blanton: Singing is also “healthy”. This reminds me. I need to call Cora Martin. Did you know that Cora and I lived in the Faculty Women’s Club while we were teaching at the University of Texas? That’s where we discussed plans for the founding of Delta Kappa Gamma. Ring Ring

Cora Martin: Lee Larkin: Hello! This is Cora Martin.

Annie Webb Blanton: Cora, this is Annie. I’ll explain later, but I’m in the year 2016. What project are you working on?

Cora Martin: Lee Larkin: I’m polishing the lyrics for the Delta Kappa Gamma song.

Annie Webb Blanton: Cora, I have a young lady here that would like to talk to you.

Shelly Samuels:: Ms. Martin my name is Shelly Samuels and I’m a member of Alpha Gamma chapter. I understand that besides assisting Dr. Blanton in polishing the lyrics for the Delta Kappa Gamma song, that you were also State keeper of the records and you assisted with organization of Alpha Sigma State Organization in Washington and also helped Dr. Blanton install Gamma State Organization, Oklahoma.

Cora Martin: Lee Larkin: How nice of you to recognize another key woman educator’s accomplishments. I’m also very involved and an active member and officer of a wide variety of academic and social organizations. Women stay healthy and intellectually stimulated by being involved not only in Delta Kappa Gamma but also in other organizations and networking. We support diversity, global awareness and networking for women.

Shelly Samuels:: Thank you Cora for giving us a strong foundation on which to build our diversity, global awareness and networking for women. We’re becoming even stronger in global awareness. Thank you for visiting with me today Cora.

Annie Webb Blanton: Janet, what is the acronym for “E” in Heart?

Janet Helmkamp: Education: Education means to educate members about the importance of membership and encourage them to make an impact on their communities and the world.

Annie Webb Blanton: Education! I need to make another phone call. I need to call Mabel Grizzard another one of the Founders. Mabel was a pupil of mine at North Texas State Normal school in Denton. Ring Ring

Mabel Grizzard: Patti Belknap: Hello, this is Mabel Grizzard.

Annie Webb Blanton: Mabel, this is Annie. I have a question for you. I was a teacher at North Texas State Normal School in Denton. I don't know why they call the college "Normal" School. Is there such a thing as an "abnormal school"?

Mabel Grizzard: Patti Belknap: I don't know Annie. Why do you ask?

Annie Webb Blanton: It just tickled my funny bone since I am here in the year 2016. I'll explain later. Did I interrupt you from anything?

Mabel Grizzard: Patti Belknap: Oh Annie, I am so excited. I've just returned from another summer of researching and observing current best educational methods from Peabody College in Nashville and the University of Denver which are two leading universities in the country. Since I'm a former teacher and now principal here in Waxahachie, I'm taking all of the information I learned and use it to help teachers apply to their classrooms.

Annie, I've also been busy attending and participating in several educational associations. The North Texas Division of Elementary Principals, Texas State Teachers Association and NEA have really kept me busy.

Oh, by the way, Alpha Alpha chapter that we founded together in 1931 in Waxahachie is going strong. There is just so much to do!

Annie Webb Blanton: Mabel, did you know that several universities have demonstration schools as part of their curriculum for student teachers, and teachers are recognized as Teacher of the Year not only in their school district but also in their region and state wide and also nationally?

Janet Helmkamp: Let me talk to Mabel. Mabel, this is Janet Helmkamp and I want you to know that your summer research and study in leading university demonstration schools of the nation has continued into the year 2016! We continue to research new and best practices not only in our universities, but also in Delta Kappa Gamma. Even on the chapter level individuals or chapters can apply for stipends through ASTEF that will promote and enhance educational excellence for Texas students, educators and the community. Mabel, thank you for providing a strong foundation for our teachers.

Annie Webb Blanton: Janet, I'm also calling Dr. Helen Koch. Did you know that Helen grew up in Illinois and attended the University of Chicago where she majored in psychology and minored in German? She also received her BA and PhD from the University of Chicago.

Annie Webb Blanton: Helen, this is Annie. You won't believe where I am. I'm in the year 2016 and don't call me crazy until you hear my side of the story. Are you still working on the survey of Texas in preparation for Child Guidance centers in Dallas and Houston?

Helen Koch: Marilyn Gregory: 2016! I'm sure this is going to be a good story! You do know that I'm a psychologist. In answer to your question, yes, I just finished the survey and I'm busy teaching psychology here at University of Texas. I do have something to share with you Annie.

I have decided to go back to Chicago. I have been offered a job as a professor of child psychology. I have close family ties to Chicago and I can continue to improve the profession in Illinois. Perhaps someday I will become one of the founders of the Lambda State Organization in Illinois!

Annie Webb Blanton: This is certainly a loss to Texas, but Illinois' gain when you return to your native state. I will be sad to see you leave, but I know you will continue to be active on the national level. I will help you establish Lambda State Organization. Dr. Clinton is from Illinois. Do you know her?

Helen Koch: Marilyn Gregory: Haven't met her.

Annie Webb Blanton: Well, you would really like her. She may be headed your way to the Land of Lincoln quite by accident! Have a good day Helen.

Annie Webb Blanton: Janet, what is the acronym for "A" in Heart?

Janet Helmkamp: Achievement. Achievement means to achieve our goals as leaders in our chapters and recognize our accomplishment as key women educators.

Annie Webb Blanton: Achievement! So let me ask you another question. Just what is ASTEF?

Janet Helmkamp: Well Past State President Nancy Newton is here. Perhaps she can better address your question.

ASTEF: Nancy Newton: ASTEF stands for Alpha State Texas Educational Foundation. ASTEF raises money to endow scholarships for women educators in Texas, funds leadership events to support professional and personal growth of Texas women educators and awards stipends for projects that benefit Texas students, educators and the community. ASTEF welcomes donations from individuals, groups, businesses and corporations.

This past year ASTEF

- Funded \$28,000 in scholarships for women
- Financed \$5,000 in stipends to aspiring educators
- Provided a leadership event at TSO convention and provided an intensive 3-day leadership program for 30 selected members from across the state
- Granted \$20,000 in project stipends to benefit over 3,500 Texas students and teachers.

Tomorrow is a very important day. ASTEF will be celebrating Valentine's Day with a challenge. We are challenging our members to share their love by making a donation to ASTEF on the ASTEF Giving Day which is February 14th. Go to www.astef.org or by mail with an ASTEF contribution form found on the ASTEF website. And by the way, all contributions are TAX DEDUCTABLE!

Annie Webb Blanton: So what you are saying is that ASTEF makes money, receives money and then gives it all away! ASTEF is going to give all of the money away to support Leadership, Scholarship and Chapter Project so donate, donate, donate!

Annie Webb Blanton: Let's go back to Achievement. Ladies how many of you are married or have been married while teaching? Janet I need to make another phone call. I need to call Lalla McClatchy Odom. Lalla helped break down the barrier of contracts not be offered to married female teachers. She is also very active in city, state and national political affairs. Lalla was also Alpha Chapter's first president. Ring Ring

Annie Webb Blanton: Janet, I need to make another phone call. I want to call Lalla McClatchy Odom. Lalla is very very active in city, state and national political affairs. She has the type of personality that can assist Delta Kappa Gamma. Ring Ring

Lalla, this is Annie. What is the status of your teaching contract?

Lalla Odom: Connie Rensink: We have crossed a milestone on banishing discrimination against women in the profession! Annie, remember at the close of the school year when I was notified that it was contrary to the policies of the Board of Educating to issue contracts to married teachers and the superintendent supported my position but told me that I could only be a substitute teacher. Well I refused to accept that position because of the discriminatory regulation. I just heard back from the Board and the Board reversed its ruling. Looks like I helped break down this barrier and I will now become one of the first married women teachers in Austin to receive a regular contract! Looks like I helped break down one barrier!

Annie Webb Blanton: Congratulations Lalla! I've traveled to the year 2016 with Prudence in my Time Machine and because of your tenacity women teachers receive regular contracts that don't require their husband's signature. Even pregnant teachers can keep teaching!

Lalla Odom: Connie Rensink: Annie, please remind your new friends in 2016 that I participated in the period when the junior high school was a separate division of the public school and was being tried as an experiment. The Allen Junior High School was the first of its type in Texas and I was named to head the department of mathematics. I want to be remembered as bringing a point of view of a junior high school mathematics teacher and the having the active desire to banish discrimination against women in the profession.

Annie Webb Blanton: Thanks Lalla. I will share that information with my all of my new friends.

Annie Webb Blanton: Janet, as you can see Lalla has the type of personality that we needed as one of the founders. Just curious – How many of your started teaching when you had to have your husband sign your contract?

Annie Webb Blanton: Janet, I have to call another Founder. Do you remember Mamie Sue Bastian?

Janet: Of course I do! Mamie Sue Bastian was Alpha State president from 1930-1934 and organized 13 chapters during her successful term. She also chaired several national committees as well as being active in her own chapter.

Annie Webb Blanton: Mamie Sue Bastian is the epitome of cheerfulness and an infectious optimism. When she enters a room laughter comes in, too! She has a regal bearing and expressive brown eyes. People instinctively know that Mamie is their friend.

Janet, just between us and the rest of the ladies in the audience there was some competition between Mamie Sue Bastian and Ruby Cole. Ruby and Mamie vied with each for the honor of first founding a chapter in her community. Ruby succeeded because she organized Beta less than two months after the founding of Delta Kappa Gamma. It took Mamie five months to establish Gamma chapter in Houston and become its first president.

Annie Webb Blanton: Ring Ring Mamie this Annie. I'm traveling in the 2016. I'll explain later and I'm not crazy. Are you working on the Birthday Luncheon?

Mamie Sue Bastian: Nancy Newton: Of course I am! I'm writing some lively Delta Kappa Gamma songs to add color to our sometimes drab lives. I love to sing and I'm going to inspire others to join in the laughter and have fun and sing. Remind your friends that I am the one who initiated the Birthday Luncheon and I was president of Alpha State and I organized 13 chapters during my term. Oh how I love to laugh and sing!

Annie Webb Blanton: Most definitely Mamie. Have you talked to Ruby Cole?

Mamie Sue Bastian: Nancy Newton: No, Ruby and her mother are restoring a mission and looking into purchasing some land for a park. Ruby is very civic minded.

Annie Webb Blanton: Thanks Mamie! You will be pleased to know that the tradition of the Birthday Luncheon still continues. Continue composing and inspiring others. You will be thrilled to know that even here in 2016 our members are still singing, having fun and singing lively tunes in their chapter meetings and at convention and workshops. Members are still seeing the impact you have had on our Society still here in the year 2016. I'll talk to you again when I return.

Annie Webb Blanton: Janet, What is the acronym for "R" in Heart?

Janet Helmkamp: Reflection: Reflection means to reflect on our heritage as we advance the Society.

Annie Webb Blanton: Reflection. Janet I'm getting tired and it has been a long journey. It's time for me to find Prudence and get back into my time machine and travel back to Austin. Before I go, let's do a little reflection. As I think about the acronym HEART I am reminded of my dear friend Lela Lee Williams. Ruth Johnson, President of Epsilon Chapter at the time of Lela's death, concluded her remarks at Lela's graveside ceremony by saying

"Her thoughtfulness to the new member, to the visitor; her notes of encouragement to those in leadership, to those in illness, pain or joy even to husbands when good things happened in the work – all bespeak the magnanimity of one who walked humbly, of one who kept the common touch when we would have so gladly made her royalty, of one who loved every person who came in contact with her and lifted them up to see their own potential of service. She touched our lives in a very meaningful way. To live in the hearts of others is not to die." Wonderful words for all members of DKG to live by.

Annie Webb Blanton: The "T" in Heart stand for what?

Janet Helmkamp: Teamwork: Teamwork means to work as members of a team to strengthen involvement in all levels of the society

I have a question to ask you Janet. If I ask you "Who is Annie?" what would you say?

Janet Helmkamp: Annie is the Founder of Delta Kappa Gamma Society International.

Annie Webb Blanton: Yes, I am the Founder of Delta Kappa Gamma, but who is Annie? I am going to suggest that ALL OF YOU are Annie! Annie is all of us and Annie is everywhere.

You see, back in 1929 I was told by a man that women could never advance because they could not work together. I was determined to prove him wrong. So I started Delta Kappa Gamma. I wanted to show him that women could unite to accomplish important goals such as gender equality, school legislation, excellence in education, good teaching conditions, networking and financial help for women preparing to teach. These original goals formed the basis of our current Seven Purposes and Alpha State President Marilyn Gregory state theme is HEART – the acronym is Health, Education, Achievement, Reflection and Teamwork.

Annie doesn't just talk. She gets things done! We have made a wealth of progress throughout the world. It's up to us to empower the next generation to do even better and greater things. Progressive and determined women are not quiet about what we care about. We are strong and we will continue to be strong! Take pride in DKG! As President Gregory says "The Heart of the Society is its members".

Together we can bring about change. We are women who make a difference. We have the power and new viewpoints and we are going to change the world to make it even better for our children and grandchildren. Put a little love in your heart and get involved! Mentor our new members and get them involved. We are all Annie, our voice will be heard and we will make a difference!

Janet, I have thoroughly my visit into the future – the year 2016 – but now I have to leave and see if I can find Dr. Clinton! If you see Dr. Clinton before I do please tell her how much I enjoyed the audience she was supposed to speak to!

This was written by Catherine Langhart of Kappa Beta and presented in San Antonio May 1979. With revisions, it was used by Helen Mattiza, Iota Pi, to be used for Area VII Conference in Fort Worth October 27, 1979. With slight revisions, it was used by Valerie Scott, Iota Pi, to be presented at Iota Pi founder's day celebration, May 2015.

Setting: *The founders are seated on stools with their backs to the audience. As each is called, she turns around and acts out her part as directed in the script. Then she turns her back to the audience again.*

A table with 12 candles is at the side of the scene. As each founder's life is narrated, someone lights a candle. At the end, all candles are lit, then extinguished. Music was taped for use.

Soft spot on Narrator, rest of stage dark. Bright spot on each founder as she speaks.

Narrator: (Music from the 20's plays in the background shortly before narrator speaks.) The year is 1929. In Austin, Texas the twelve founders of Delta Kappa Gamma were gathered to form our society. Today the year is 2015 and we gather to honor those twelve founders. Though the accomplishments of our founders have been many, our intent this evening is to give you a more personal vignette of their lives. (Stop music)

(Sue King is spotted, reading the paper.)

Narrator: Sue King. The date is November 2, 1917.

Sue King: Listen to this! "Hats off to women! Texas teachers made a new high record. The men did not launch the movement; the women teachers did..." You know, I was one of three women teachers to get Miss Blanton elected to TSTA Presidency that day. I guess that is why

she remembered me when time came to select co-founders of Delta Kappa Gamma. My sister and I come from Ft. Worth where I try to put life and joy into teaching history. (Spot fades.)

Narrator: Miss Sue King died May 4, 1930 – only a year after the founding of Delta Kappa Gamma.

(Dr. Blanton is spotted)

Narrator: Dr. Annie Webb Blanton. (She is dressed in a gardening outfit, arranging and pruning roses)

Dr. Blanton: I was born August 19, 1870. I worked for the cause of equal rights for women, and in 1916 I became the first woman president of the Texas State Teachers Association. In 1918 I was elected as the first woman to become state Superintendent of Public Instruction. Although an energetic worker, I enjoyed relaxing with a mystery novel, or shopping for another miniature donkey to add to my collection of nearly 200.

I take pride in presiding and conducting business meetings as well as serving at a tea table. I am equally proud of being able to change a tire on my car.

By the way, I have traveled many a mile to install new chapters of Delta Kappa Gamma. Once I considered sending a substitute, but I decided to go myself, in spite of my flu attack. Why send someone who had done no work?

I frequently get requests to get materials for programs. If I had time, I would give everyone help. I teach 6 days a week, give tests and grade them. I do correspondence teaching, work in faculty committees,

and direct graduate theses. I edit the bulleting and keep accounts of indebtedness for 33 states and 250 chapters. It is time to relax with my roses. My favorite flower. (Spot dims.)

Narrator: Dr. Annie Webb Blanton died on October 2, 1945.

(Spot picks up on Helen Koch)

Narrator: Helen Lois Koch (dressed in a soft flowing dress)

Helen Koch: I was born on August 26, 1895 to German parents in Blue Island, Illinois. I love to play the piano. When I was in high school I would rise at 4 a.m. to practice the piano.

In 1918, I received my Bachelor of Philosophy degree and in 1921 the Doctor of Philosophy degree, both from the University of Chicago. In 1922, I became an instructor of psychology at the University of Texas.

I have done much work in the field of child psychology. A favorite of mine is parental interactions, and effects of twins on each other.

I have traveled extensively. In 1948-49, I was an exchange professor to the Johann Goethe University at Frankfurt, Germany. I have been involved in many welfare programs. During WWII I helped to train teachers for government sponsored nursery schools. From 1942-45, I served on the committee on Child Care of the Office of Civilian Defense for the Chicago Metropolitan Area.

In 1957, I returned to Frankfurt. I taught two courses and helped to stabilize the work in child psychology which I initiated in 1949.

In 1966, for a change of pace I traveled to Egypt for a month. There I took a paddle-wheel steamer down the Nile, eating, sleeping,

and living on the boat. On the necessary land trips I was escorted by a fine archeologist.

Some years ago the founders were asked to express their dreams and hopes. Among mine was the dream that Delta Kappa Gamma will become an international organization of women teachers – so well led that no opportunities to advance the cause of education and constructive international relations will ever be missed. (Lights dim.)

Narrator: Thank you, Helen. (Light picks up Mamie Sue Bastian) And here is Mamie Sue Bastian. (She is dressed in a frivolous carnival-like outfit, with garb (sic.), beads, etc. with a masquerade mask – she can be laughing or singing as she turns around. She will carry several balloons on sticks filled with helium.)

Mamie Sue Bastian: I guess you know I founded about thirteen Delta Kappa Gamma Chapters. I formed a Classroom Teachers Association to raise salaries from \$60.00/month to \$90.00/month. I advocated the enactment of the Teachers Retirement System.

But I also enjoyed the lighter side of life. In our services to children, we need to value the frivolous social fun and things of the heart. We need to love each other, to laugh together, and to enjoy to some extent the lighter phases of life. So let us cling to the stunt, continue the birthday luncheons with cake, candles, and song. The founder's day banquets, and lightsome songs and music anytime we're together. For instance, I'd like to join you and your song leaders in a happy round of the Birthday Song right now! Please sing with me – (Sings and hands balloons to members in the audience. She leaves as the song ends.)

Narrator: Mabel Youree Grizzard (she is spotted sitting, looking at a map in her lap)

Mabel Grizzard: Last summer my mother, my sister Eve, and I traveled through the far West. I love traveling, and now we are ready for an excursion in Texas. Excuse me, if you will, while I look over some materials. (Spot dims.)

Narrator: Mabel Grizzard believed that good teaching involved teaching the basics and developing moral character. She supervised practice teachers for Trinity College in Waxahachie and kept abreast of teacher training methods. Miss Blanton was first impressed by her success in this field. The last words sent by her were the prayer – intended for the International Convention of Delta Kappa Gamma in Cleveland in 1966.

“Our Father, we would ask thy divine blessings upon us as we assemble here. We thank thee for daily manifestations of thy nearness to us and thy love for us. Bless this fine organization, its splendid leaders and members, that it may ever achieve and maintain the high purposes and ideals upon which it was founded. We would ask thy blessings upon this great and free country in which we are privileged to live and serve, and may we ever strive to preserve its sacred heritage. Bless each home represented here and those who must be absent from us. All this we ask in thy beloved son Jesus’ name. Amen.”

Narrator: Lalla McClatchy Odom (in street dress, hat, with spade in her hand)

Lalla Odom: I have just turned the first spade of earth for the headquarters building in Austin. Boy, did I have a time persuading Governor Dan Moody to withdraw his offer to buy the lot for himself, but he came around to see it my way. (Walks off stage.)

Narrator: Mrs. Odom put her son through college, carried a heavy teaching load in high school math and music, and held membership in several professional organizations. During her presidency, Lalla kept Alpha Chapter formed for four years in school legislation. One of her music students was Will Rogers. She died April 14, 1964.

Lela Lee Williams (dressed in “Sunday” dress, a lot of costume jewelry.)

Lela Lee Williams: I have always been active in church and civic life as well as educational affairs. Would you believe I have taught 45 years in the Dallas Public School System? Well, I have.

On October 21, 1929, Dr. Blanton helped me to install Epsilon Chapter in Dallas. It was an impressive occasion for me. However, our first birthday celebration really stands out in my mind. The guests arrived in such a downpour that no one had a stitch of dry clothing. After the president’s wardrobe had been exhausted, the other Delta Kappa Gammas resorted to the ironing board to dry their clothes. This is one of my fond memories.

Narrator: Thank you Lela Lee. (Spot moves to Ruby Lomax with a violin) Ruby Terrill Lomax

Ruby Terrill Lomax: Just for the record, some people call me Bunch. You may well wonder how I got that name. I once saw a picture of beautiful roses and exclaimed, “Me, a bunch of roses!” After that, people have called me Bunch.

Excuse me, I have to go now. My husband John is waiting. Tonight we are entertaining a group of friends with the latest recordings made for our folklore collection. John and my son have just returned from a trip which took them all over the United States – to many people, even convicts in jail, wherever there was a promise of a song or a ballad.

Narrator: Thank you, Bunch. (She leaves and Dr. Hiss enters, dressed as a PE teacher with a basketball)

Dr. Anna Hiss: (blows whistle) I came to U.T. in 1918 and soon was appointed head of the PE department. Now, I don’t believe that many of our girls here have been taught the social graces. So we are planning to use the PE department to stage a formal dance in the gym. To practice, the girls will dress in formals and some of the girls will pose as boys in tails. I understand the New York Times and Chicago Tribune will send someone to cover our event.

I have been going over blueprints for building gymnasiums. I have decided by the end of the 1920’s we will have a girls’ PE facility at UT. PE buildings are not my only interest. My interest in Delta Kappa Gamma brought me to help purchase a lot for the International Headquarters, in Austin. I presided at the Founder’s Banquet on the

fifth birthday of Delta Kappa Gamma. Now, I need to go talk to the board about the gymnasium plans.

Narrator: Bye, Dr. Hiss. Don't forget your basketball. (Spot light moves to show Ruby, Cora, and Ray King. Ruby has a picture of the Alamo; Cora has a book of Browning; Ray King is doing needlepoint.)
Ruby Cole.

Ruby Cole: Have you been to the missions lately? I can't think of a better way to spend a Sunday afternoon. I have always been active in restoration of our beautiful San Antonio. I am proud that I was one of the original women libbers. My ideas were too startling to tradition-oriented ears. I hope some of you out there will have better luck.

By the way, I helped organize the Delta chapter on July 6, 1929. Less than 2 months after our society was organized. Let's all stand to honor the oldest chapter in San Antonio.

Excuse me, it's feeding time for my faithful companion dogs, Lucky and Lady.

(She leaves and Cora Martin remains seated, reading her book)

Cora Martin: (reading) "How do I love thee, let me count the ways..."

Narrator: Mrs. Martin? Cora Martin?

Cora Martin: (looks up) Oh, excuse me. I became a teacher shortly after the death of my husband and baby girl. We had just been married a year. It seems just yesterday – stories of Indian raids, bloodstains on the floor boards of our house – they are still with me. Although I've

given 26 years of service to training teachers at North Texas State Teachers College, I've made time to enjoy music, poetry, and creative writing. Let me see hands if anyone graduated from N.T.S.T.C.

Narrator: Cora attended the Delta Kappa Gamma Convention in San Francisco in 1964. She collapsed and died shortly afterward. She bequeathed \$3,000.00 to the Delta Kappa Gamma Society and \$1,000.00 for the ACET Scholarship Fund. She was laid to rest near her husband and baby child. (Spot picks up Ray King.)

Ray King: When Dr. Blanton and the other founders elected me to be treasurer of The Delta Kappa Gamma Society, I was honored as well as thrilled. It gave me the opportunity to serve our newly-formed organization and at the same time, to ride my favorite hobby, "figgerin."

I suppose you wonder where I got my name. Well, I can give full credit to a much beloved aunt, who insisted upon calling me Ray.

I have always enjoyed entertaining my friends. Although I have no special hobby, I enjoy needlepoint, hook rugs, African violets, and cooking.

When I retired I was active in Woman's Club, church work, attractions offered by Ft. Worth lecture foundation, Civic Music Association, Ft. Worth Opera Guild, and the Dallas Symphony Orchestra. I also served on committees with the Retired Teachers Association. (Spot dims.)

Narrator: Miss Ray King died January 24, 1979. Bernice Conoly said in her Golden Reunion message: Sue led the founders in meeting death in the first year of the Society's history. Ray closed their immortal ranks

during the eighth month of the fiftieth year. It seems appropriate that the deaths of the King Sisters should provide a “time frame” around the first fifty years of the life of the Society. The twelve Founders are together again, and the Society is on its own, to follow their leaders.

(All Candles are Extinguished)

Headquarters Building was dedicated

1956

*The year the first International Educators
Award was given

1946

*The year the first International
Achievement Award was given

1933

Founders

*This founder was a classmate of Annie Webb Blanton's in the Houston schools. At one time or another she taught all subjects, but her favorite was arithmetic. She helped establish Gamma chapter in Houston and was its first president. The birthday luncheon was her idea.

Mamie Sue Bastian

*While at the University of Texas, this founder helped develop and promote the physical education program. She was most proud of the erection of the gymnasium for women. She was a fascinating conversationalist who loved poetry and music.

Anna Hiss

*This founder worked in the Ellis County and Waxahachie schools for many years as an elementary school teacher and as a principal. She also taught an adult women's class at her local church. She helped establish Alpha Alpha chapter in Ellis County.

Mabel Grizzard

*This founder loved to entertain guests, was a collector of Texas histories, and enjoyed reading and playing bridge. Before her untimely passing, she had founded Beta Chapter in San Antonio.

Ruby Cole

*This founder spent 45 years teaching in the Dallas school system. She was the second woman president of the Texas State Teachers Association. She helped establish Epsilon Chapter.

Lela Lee Williams

*This founder was the first state and national treasurer. She graduated from Pilot point High School and North Texas State Normal School with an almost straight A average. She taught in Fort Worth for many years and helped establish Delta Chapter.

Ray King

*This founder graduated from the university of Texas in 1908 with the highest average achieved by any person at that time. She taught Latin and classical languages for many years. She served as the first international parliamentarian.

Ruby Lomax

*This founder had an interest in music and mathematics; she was the first married woman to receive a regular teaching contract in the Allen School District; she was named the head of the Mathematics Department at Allen Junior High School and established the second chapter in the Austin area, Epsilon Kappa.

Lalla Odom

*This founder wrote a series of five Real Life Readers based on the premise that content should be meaningful to children. She sang beautifully, read poetry, and was very articulate. She is most noted for helping to write 'The Song'.

Cora Martin

*This founder and Chicago native was an early riser and spent many years practicing and developing a skillful technique and an appreciation of fine music. Before college graduation she developed a love for psychology that eventually took her to the University of Texas,

Helen Koch

*This founder taught Latin in the high schools of Denton and Mineral Wells before moving to Fort Worth to teach high school history. She loved bridge and tennis along with needle point, reading and the preparation of exotic foods.

Sue King

International

*Assists individuals in their participation in professional development opportunities through a series of grants
Cornetet Scholarship

*Assists members who sustain major losses from floods, tornadoes and other catastrophic disasters
Emergency Fund

*A two week leadership/.management seminar held in Austin for women who show evidence to become leaders in education, their communities and in the society.
Golden Gift

*This committee honor appropriate books and their authors for educational accomplishments
Educators Award

*This is held p[prior to the international convention and focuses on personal life and educational issues featuring well known local speakers
Seminar for Purposeful Living

*This committee oversees the Afghanistan project- UNICEF and promotes human rights around the world
United Nations

*Dr. Annie Webb Blanton was the first to receive this award for her work involved in establishing The Delta Kappa Gamma Society.
Achievement Award

*Current issues of this group are paycheck fairness Act HR1338, Sexual Violence in the Military, Heart for Women Act, Binding Mandatory Arbitration and the Elmer Glue Recycling Project.
U.S. Forum

* This group gathers together important information from the chapters in the providences and composes the Provincial reports.

Canadian Forum

*Member in this group share ideas and experiences and discuss matters related to women, education, ethics, health, peace, legislation, and strategies to gain members in this mostly Spanish speaking area.
Latin American Forum

*This group is made up of seven countries with seven different languages, cultures, school systems, and histories. This group does not have any influence on school laws.
European Forum

Committees

*This committee is in charge of preserving your Chapter's history.

Archives

*This committee has the task of presenting beautiful and dignified programs and conducting the chapter initiation.

Ceremonies

*This committee is in charge of the governing documents of the chapter

Constitution and By-Laws

*This committee assists the treasurer with collection of dues and management of chapter money.

Finance

*This committee helps the chapter initiate and retain members.

Membership

*This committee is in charge of maintaining accurate records and expressing sympathy when a sister passes away.

Necrology

*This committee helps identify members who wish to become our leaders during the next biennium

Nominations

*This committee helps members stay informed concerning issues that impact us as educators

Legislation

*This committee can enhance chapter programs by choosing appropriate songs

Music

*This committee has the opportunity to help your chapter members grow through informative and interesting meetings

Personal Growth and Services

*This committee seeks to find members who are willing to conduct workshops.

Professional Affairs

*This committee looks up information key to good chapter meetings and encourages chapters to maintain a written record of their history.

Research

*This committee prepares the chapter book that contains meeting dates and other important information for members

Yearbook

*This committee recognizes hard working individuals in the chapter.

Achievement

*This committee is in charge of seeing that the members are kept informed with newsletters.

Communications

*This committee encourages members to use the International, state, and chapter websites.

Communications/Technology

*This committee is designed to train women to be more successful and become more effective leaders in their chapters, schools, and communities.

Leadership

*This committee awards money to individuals who wish to grow personally and professionally.

Scholarship

*This committee helps women through out the world complete their education.

World Fellowship

Misc.

*Name of the International periodical that provides members with timely information on issues of concern

Ruby Cole

Founders

*This founder spent 45 years teaching in the Dallas school system. She was the second woman president of the Texas State Teachers Association. She helped establish Epsilon Chapter.

Lela Lee Williams

Founders

*This founder was the first state and national treasurer. She graduated from Pilot Point High School and North Texas State Normal School with an almost straight A average. She taught in Fort Worth for many years and helped establish Delta Chapter.

Ray King

Founders

*This founder graduated from the University of Texas in 1908 with the highest average achieved by any person at that time. She taught Latin and classical languages for many years. She served as the first international parliamentarian.

Ruby Lomax

Founders

*This founder had an interest in music and mathematics; she was the first married woman to receive a regular teaching contract in the Allen School District; she was named the head of the Mathematics Department at Allen Junior High School and established the second chapter in the Austin area, Epsilon Kappa.

Lalla Odom

Founders

*This founder wrote a series of five Real Life Readers based on the premise that content should be meaningful to children.

She sang beautifully, read poetry, and was very articulate. She is most noted for helping to write 'The Song'.

Cora Martin

Founders

*This founder and Chicago native was an early rise and spend many years practicing and developing a skillful technique and an appreciation of fine music. Before college graduation she developed a love for psychology that eventually took her to the University of Texas,

Helen Koch

Founders

*This founder taught Latin in the high schools of Denton and Mineral Wells before moving to Fort Worth to teach high school history. She loved bridge and tennis along with needle point, reading and the preparation of exotic foods.

Sue King

International

*Assists individuals in their participation in professional development opportunities through a series of grants

Cornett Scholarship

International

*Assists members who sustain major losses from floods, tornadoes, and other catastrophic disasters

Emergency Fund

International

*A two-week leadership/.management seminar held in Austin for women who show evidence to become leaders in education, their communities and in the society.

DKG Ignite

International

*This committee honor appropriate books and their authors for educational accomplishments

Educators Award

International

*This is held p[prior to the international convention and focuses on personal life and educational issues featuring well known local speakers

Seminar for Purposeful Living

International

*This committee oversees the Afghanistan project- UNICEF and promotes human rights around the world

United Nations

International

*Dr. Annie Webb Blanton was the first to receive this award for her work involved in establishing The Delta Kappa Gamma Society.

Achievement Award

International

*Current issues of this group are paycheck fairness Act HR1338, Sexual Violence in the Military, Heart for Women Act, Binding Mandatory Arbitration, and the Elmer Glue Recycling Project.

U.S. Forum

International

* This group gathers important information from the chapters in the providences and composes the Provincial reports.

Canadian Forum

International

*Member in this group share ideas and experiences and discuss matters related to women, education, ethics, health, peace, legislation, and strategies to gain members in this mostly Spanish speaking area.

Latin American Forum

International

*This group is made up of seven countries with seven different languages, cultures, school systems, and histories. This group does not have any influence on school laws.

European Forum

Committees

*This committee is in charge of preserving your Chapter's history.

Archives

Committees

*This committee has the task of presenting beautiful and dignified programs and conducting the chapter initiation.

Ceremonies

Committees

*This committee oversees the governing documents of the chapter

By-Laws and Rules

Committees

*This committee assists the treasurer with collection of dues and management of chapter money.

Finance

Committees

*This committee helps the chapter initiate and retain members.

Membership

Committees

*This committee oversees maintaining accurate records and expressing sympathy when a sister passes away.

Necrology

Committees

*This committee helps identify members who wish to become our leaders during the next biennium

Nomination

Committees

*This committee helps members stay informed concerning issues that impact us as educators
Legislation

Committees

*This committee can enhance chapter programs by choosing appropriate songs
Music

Committees

*This committee can help your chapter members grow through informative and interesting meetings
Programs and Services Projects

Committees

*This committee seeks to find members who are willing to conduct workshops.
Personal & Professional
Enrichment

Committees

*This committee looks up information key to good chapter meetings and encourages chapters to maintain a written record of their history.
Research

Committees

*This committee prepares the chapter book that contains meeting dates and other important information for members
Yearbook

Committees

*This committee recognizes hard working individuals in the chapter.
Achievement

Committees

*This committee is in charge of seeing that the members are kept informed with newsletters.
Communications

Committees

*This committee encourages members to use the International, state, and chapter websites.
Communications/Technology

Committees

*This committee is designed to train women to be more successful and become more effective leaders in their chapters, schools, and communities.
Leadership Seminar

Committees

*This committee awards money to individuals who wish to grow personally and professionally.
Scholarship

Committees

*This committee helps women throughout the world complete their education.

ΔΚΓ Bingo Review Sheet

Dr. Blanton

Annie Webb Blanton and her twin sister Fannie were born in Houston in 1870. Fannie died during childhood. Ms. Blanton graduated from LaGrange High School. While attending the University of Texas, she studied English and after graduation taught English for 17 years. Ms. Blanton's education did not stop there. She attended Cornell University and received her Doctor of Philosophy. Dr. Blanton was the first woman president of the Texas State Teachers Association and served as president for 4 years. She also wrote an English Textbook entitled, Advanced English Grammar.

In 1929 she along with 12 ladies organized a society for women educators, The Delta Kappa Gamma Society. The headquarters for this organization is located in Austin. In 1933 Annie Webb Blanton received the first national Achievement Award.

Her favorite color was blue; she loved to wear earrings to show off her frivolous side, and when she went shopping, she often purchased a miniature donkey to add to her collection.

Annie Webb Blanton died in 1945 and is buried at Oakwood Cemetery in Austin.

Mamie Sue Bastian

This founder was a classmate of Annie Webb Blanton's in the Houston schools. At one time or another she taught all subjects, but her favorite was arithmetic. She helped establish Gamma chapter in Houston and was its first president. The birthday luncheon was her idea.

Anna Hiss

While at the University of Texas, this founder helped develop and promote the physical education program. She was most proud of the erection of the gymnasium for women. She was a fascinating conversationalist who loved poetry and music.

Mabel Grizzard

This founder worked in the Ellis County and Waxahachie schools for many years as an elementary school teacher and as a principal. She also taught an adult women's class at her local church. She helped establish Alpha Alpha chapter in Ellis County.

Ruby Cole

This founder loved to entertain guests, was a collector of Texas histories, and enjoyed reading and playing bridge. Before her untimely passing, she had founded Beta Chapter in San Antonio.

Lela Lee Williams

This founder spent 45 years teaching in the Dallas school system. She was the second woman president of the Texas State Teachers Association. She helped establish Epsilon Chapter.

Ray King

This founder was the first state and national treasurer. She graduated from Pilot point High School and North Texas State Normal School with an almost straight A average. She taught in Fort Worth for many years and helped establish Delta Chapter.

Ruby Lomax

This founder graduated from the university of Texas in 1908 with the highest average achieved by any person at that time. She taught Latin and classical languages for many years. She served as the first international parliamentarian.

Lalla Odom

This founder had an interest in music and mathematics; she was the first married woman to receive a regular teaching contract in the Allen School District; she was named the head of the Mathematics Department at Allen Junior High School and established the second chapter in the Austin area, Epsilon Kappa.

Cora Martin

This founder wrote a series of five Real Life Readers based on the premise that content should be meaningful to children.

She sang beautifully, read poetry, and was very articulate. She is most noted for helping to write 'The Song'.

Helen Koch

This founder and Chicago native was an early riser and spent many years practicing and developing a skillful technique and an appreciation of fine music. Before college graduation she developed a love for psychology that eventually took her to the University of Texas,

Sue King

This founder taught Latin in the high schools of Denton and Mineral Wells before moving to Fort Worth to teach high school history. She loved bridge and tennis along with needle point, reading and the preparation of exotic foods.

Purposes

To unite women educators of the world in a genuine spiritual fellowship.

To honor women who have given or show evidence a potential for distinctive service in any field of education.

To advance the professional interest and position of women in education.

To initiate, endorse, and support, desirable legislation or other suitable endeavors in the interests of education and of women educators.

To endow scholarships to aid outstanding women educators in pursuing graduate study and to grant fellowships to women educators from other countries.

To stimulate the personal and professional growth of members and to encourage their participation in appropriate programs of action.

To inform the members of current economic, social, political, and educational issues so that they may participate effectively in a world society.

ΔΚΓ Bingo

Objective: To learn about Delta Kappa Gamma through a game type situation

This is a questions and answer type bingo game.

The announcer calls out a question. Audience members must find the answer on their bingo card and mark it out.

The first person to yell bingo gets a prize.

There are two bingo cards per sheet.

Bingos may be obtained across, up and down, or diagonal.

A super bingo may be made going across through both bingo cards.

After a bingo, members do not dump their cards, the game continues.

Once a person gets a bingo on one card, that card becomes a blackout card.

All spaces must be covered to get another bingo.

Alpha Iota has selected members to the front after the program, that read about our founders. We then sing Happy Birthday and blow out lit candles on birthday cupcakes. It's a good reminder of our heritage.

In Sisterhood,
Georgan Hendricks
Alpha Iota President

J-

CEREMONIAL FOR FOUNDER'S DAY

(Table is set with candles, roses, and Bible. Chairman and twelve members stand behind the table.)

Today we pause to do honor to those twelve dedicated women teachers, who under the guidance of Dr. Annie Webb Blanton formed the nucleus of what today is Delta Kappa Gamma Society International. Women of vision, women of purpose, and most of all, women of action were they---courageous, dauntless, desiring not personal glory, but rather the just and rightful merits of all women teachers.

These twelve, representing every level of the teaching profession, each a leader in her own right, became a strong, closely-knit group, exemplifying at once the first purpose of Delta Kappa Gamma - "To unite women educators of the world." To be sure, there have been times when this unity was in jeopardy, but always a deep, abiding faith in the lofty ideals of our founders has inspired a bond that has held firm, and we are still one in loyalty and purpose.

All of the twelve founders lived to see the seven major purpose of Delta Kappa Gamma fulfilled. More than half of them saw the Society become an international influence in education, and also saw a Delta Kappa Gamma Society that no doubt surpassed the most extravagant hopes of that great woman who conceived the idea of the Society.

So, as we light the candles, one for each of our founders, symbolizing the light of her inspiration, and now a member of the chapter eternal, let each of us renew the pledge she made when she was accorded the high honor of becoming a member of Delta Kappa Gamma.

(Candles are lighted as names of founders are read.)

Chairman reads the pledge taken by each member during their initiation. Members recite the pledge as the candles burn.

(Ceremony is concluded by singing an appropriate song from the Delta Kappa Gamma songbook. Example: The Rose of Delta Kappa Gamma, pp.38-39, songbook #5, or A Pledge to DeltaKappa Gamma, p. 37, Book #5.

(Mona G. Horton, Chairman)
(Beta Rho Chapter, Alpha State, Texas)

Texas Founder: Dr. Clara M. Parker. WHO??

Directions:

(Prepare before- hand fans with 4 having the picture or name Dr. Eula Lee Carter and the other 4 being Dr. Clara Parker. I used throat depressors and photocopied pictures of women. Could just as easily put their last name on a piece of stiff paper and glue to a popsicle stick for holding up. Also, ask 2 persons to be “experts on Dr. Parker and supply them with the answers to all questions. When time comes, the 4 volunteers are each given a fan with Dr. Parker’s picture and one with Dr. Carter’s picture. Pictures are available from *Our Heritage, Vol I* for copying.)

Program:

Each May we honor our Founders with a Founders Day program. Well, this year, we are not going to talk about Dr. Annie Webb Blanton and the 12 women who founded our Society of Key Women Educators interested in advancing education worldwide.

No, tonight we are going to talk about two founders. One we will only briefly mention and then dig into the life of the other Texas State Honorary Founder.

Ever notice on our yearbook page 4, (show) it has listed at the bottom 2 Texas state Honorary Founders--Dr. Eula Lee Carter and Dr. Clara May Parker? Who are they? Why are they honorary members?

As the Society expanded into other states, there were outstanding educators in each state who were instrumental in helping charter the Society in their home states. These women became the founders of each individual state. Texas, being the birthplace of DKG, had 12 Founders--but these were all shared with every other state, and eventually with 19 other countries.

THEN, in 1949 at the state convention in Houston it was agreed unanimously to name two women as Honorary Texas State Founders. Along with Dr. Eula Lee Carter, she was named as our Honorary State Founders. But who is she??

We are going to learn about her tonight. **Dr. Clara May Parker.** Who was she? Why was she selected?

View video on Clara Parker that is on TSO website: Found in Resources under Reference materials, Music and Videos. (About 12 minutes)

Ready to learn more about this woman?

We need 4 volunteers to assist us in our presentation.....(ask, select, bring them to front and give them the fans). Come take your seats.

The experts are being seated at their table. Would our Clara Parker specialists also take your seats? (Hand them their script—portion below, with questions and answers, so they can give thumbs up or thumbs down to questions)

I will ask a question and you (vols) will hold up the stick of person you believe is the correct answer. Our experts will confirm or deny your votes and explain why.

Which "founder" was born in Aubrey Texas?

Clara would be over 140 if alive today.

Clara, died in 1958 & buried beside her parents in Pilot Point, Tx

Who attended what is today known as the University of North Texas?

Clara, besides being on faculty became Dean of women

THEN went to Univ of Texas at Austin.

Clara Parker received a doctorate from Univ of Tx in 1930. She was asked by Dr. Blanton to be a founder of the Society but declined as she felt her teaching assignment and the completion of the work on her doctorate was all that she could handle in the year 1929-30.

Who taught Latin and English?

Clara, both at the high school and university level.

Who taught for almost 40 years?

Clara taught in Graham and Wichita Falls before going to NT and UT

Did she serve as president of her chapter?

Clara for 4 years, Alpha chapter in Austin.

Who was never married?

Clara never married--fiancé killed in War.

How did she develop the Society?

Clara helped Dr B organize and charter state of Oklahoma in 1932.

She helped charter at least 3 chapters in Texas

Clara wrote definitive book on Annie Webb Blanton.

Could she be considered a person of faith?

Clara wrote hymns, including some for DKG.

Display copies of most of the books Clara wrote or edited as mentioned in video.

Next ,we will explore Dr. Eula Lee Carter, our other Texas State Honorary Founder.
Wonder what we'll learn new and exciting about her?

Do you strive to improve teaching methods and conditions? ____

Are you active in community affairs? ____

Do you know what the 'platoon' system is? ____

Have you ever received any type of service award? ____

How do you think you compared to our Founders? Do you have something in common with each Founder? Maybe if you had been around in 1929, Dr. Annie Webb Blanton might have invited you to be a Founder of a society for women educators.

Now let's see what you have in common with our founders!

Part I. Annie Webb Blanton

Born in Houston Texas, Dr. Blanton became the first woman president of the Texas State Teachers Association and eventually would become the first president of the Delta Kappa Gamma Society. During her four years as State Superintendent of Public Instruction, Dr. Blanton was instrumental in passing the Better Schools Amendment to the Texas Constitution establishing a free text book policy; and increasing public schools teachers' salaries by an average of 54 percent. Ms. Blanton was an English teacher who after receiving her Master's Degree studied in the field of rural education and rural sociology. She enjoyed reading mysteries. She had a twin sister named Fannie, who died at a young age.

Part II. Mamie Sue Bastian

Alongside Dr. Annie Webb Blanton, Mamie Sue Bastian fought against unjust discrimination for many years. She worked hard and successfully established a teacher retirement system in Texas. Her legislative skill prompted her to spend time persuading committees to approve educational bills and promoting their passage. Mamie Sue loved to sing and always inspired others to join in on the fun. She served as principal at two different elementary schools before retiring.

Part III. Ruby Cole

Part of Ruby Cole's success came from her detailed planning; her thoroughness and determination; every committee report, every speech had to be perfect. Ruby worked for better schools and for teacher welfare through committee efforts of the State Texas Teachers Association and through the legislative committees of Delta Kappa Gamma and of elementary principals. Ruby was the National Chairman for the Committee for Nominations. She was a collector of Texas histories. Ruby and her mother enjoyed traveling to New York City to attend plays. Everyone loved to get together at Ruby Cole's home because she was a most gracious hostess making sure everyone was happy.

Part IV. Mabel Grizzard

Mabel Grizzard was named First Lady of the Year in her hometown of Waxahachie. She loved a good bridge game and other card games. She was a past president of the Shakespeare Club, along with serving on committees like the Civic Beautification Committee of the Garden Club, and the Education and Scholarship committee, just to name a few. She was active in the Main Street Christian Church. One of Ruby Cole's first education positions was teaching in the upper elementary grades. She holds a life membership in the National Congress of Parents and Teachers- a gift from the elementary school PTA.

Part V. Anna Hiss

A University of Texas Physical Education and Health teacher, Anna Hiss had a wide range of interests. She organized the State Association of the athletic Foundation of College Women and the State Association of Physical Education for College Women. She led in the developing of the Inter-American and International Relations program for Health, Physical Education, and Recreation. An accomplished pianist, she worked with the Girls Scouts, League of Women Voters, and the Mental Hygiene Association. She loved to tell stories to adults and children while sitting around a campfire.

VI. Ray King

Ray King was the first treasurer of Delta Kappa Gamma. It fell upon her to organize the funds and set policies for future treasurers to follow. She began her teaching career in the 5th and 6th grades, before moving into middle school to teach and then on to high school where she was eventually named chairman of the history department. She and her sister Sue loved to travel and would often explore the United States, Canada, and Mexico by ship, trains, automobiles and even traveling on a bus. Ray King made Fort Worth her home.

VII. Sue King

Although her life was cut short, Sue King gathered a lifetime of accomplishments ranging from first teaching Latin and then history at the high school level. Sue was independent, not relying on her family to finance her education. Her love of learning prompted her to travel to California where she and her sister continued their education. Sue developed a love of hiking in the mountains, going to plays, and the occasional football game. For relaxation she liked to play tennis, bridge and do needlepoint. Sue was also an avid reader and during vacations would look for supplementary materials for the school library.

VIII. Helen Koch

Helen Koch was a hard-working individual who packed more activities into one day than you and I could imagine. As a child, she watched her father tend to the plants in the garden and upon her retirement built her own garden. Because of that work ethic, Helen was able to accomplish a great deal in her life. At an early age, Helen found a love of music and became an accomplished pianist. When arthritis set in, she gave up playing piano and studied psychology; this led to her generous contributions in the area of child psychology. Helen spent a year as an exchange professor in Frankfurt Germany.

IX. Ruby Lomax

Her family nickname was acquired when she saw a picture of a beautiful bouquet of roses and exclaimed "Me a bunch of roses". After that, Ruby was affectionately called 'Bunch'. Bunch loved learning and eventually earned her Master's Degree in classical languages. After her retirement she spent time researching folklore for the Library of Congress. Dr. Blanton relied heavily upon Ruby for advice; therefore Ruby was the logical choice for the first state-national parliamentarian. Ruby came from a family of teachers; her parents, sister and brother-in-law all were educators. Ruby's husband was an author.

X. Cora Martin

A woman of many talents, Cora Martin is best known for helping Annie Webb Blanton write the lyrics to the Delta Kappa Gamma Song. Cora loved to write and her series of Real Life Readers was adopted in many states. Growing up outside of Chico, Texas, Cora was the youngest of eight children. She taught Reading for many years, before joining the University of Texas as an assistant professor of elementary education where she helped prepare future elementary teachers for the classroom. Cora Martin realized that goal setting and establishing policies was important to any professional organization. After her retirement, she was not about to sit still. Whether she was cruising the Mediterranean, flying to Europe, or driving across the United States, Cora Martin loved to travel.

XI. Lalla Odom

Can you imagine being told that you could not teach because you were married? Neither could Lalla Odom. She fought the ruling that contracts could not be issued to a married teacher. After several months, she was one of a few teachers in Austin who were granted teaching contracts. She taught music and mathematics for many years and her best know pupil was Will Rogers. She took an active part in political affairs of the city and participated in the League of Women Voters. Mrs. Odom was present for the dedication of the Delta Kappa Gamma Headquarters building in Austin, in August of 1956.

XII. Lela Lee Williams

Beginning her career teaching elementary school, eventually teaching speech during summer school, Lela Lee Williams spent the majority of her career as a principal. To her credit, she was asked to develop the work-study-play system or Platoon System for larger elementary schools. She also wrote Auditorium Activities, Volume 1 for use by teachers in the Platoon System. She was a firm believer in the fact that the demand for increased efficiency in teaching methods must be met with higher salaries. Upon her retirement she became prominent in civic life, working with Dallas Civic Welfare Association and the Junior Red Cross. Because of her work with civic, welfare, educational, and religious organizations, she was voted the Dallas Zonta Club Service Award in 1956.

Conclusion:

Could you have been a founder of Delta Kappa Gamma? Would you have said yes to Dr. Annie Webb Blanton when asked to join her in organizing a society for women teachers? We are all capable women who step up to the challenges that face us day after day. I'd like to think we all could have been a part of the original 12, since we all bring something different to the society.

Beyond the horizon of time is a changed world, very different from today's world. Some people see beyond that horizon and into the future. They believe that dreams can become reality. They open our eyes and lift our spirits. They build trust and strengthen our relationships. They stand firm against the winds of resistance and give us courage to continue the quest. We call these people leaders.

Thank you.

Could You Be a Founder?

Subject: Re: Birthday celebration

The Delta Omicron chapter interviews one or two members that have been around for several years. We have a member that knows them well and asks them some of these questions. Our members always enjoy hearing about these ladies.

1. When did you join DKG?
2. What officers and committees have you been in?
3. What have you enjoyed in our chapter?
4. Talk about your teaching career.
5. Talk about your family.

Dear AC's,

This is Cookee Johnson emailing each of you for a very interesting but a much needed favor. I am asking that each of you reach out to your chapters and ask how they are going to celebrate Founders Day in May. After asking members at the convention, many have said that the only information available to them are the biographies of each of the 12 founding ladies. I know that there are chapters who have found fun, informative, entertaining, and different ways of presenting programs about the Founders. Please reach out to the chapters for me and ask about what information they plan to use at their celebrations. My goal is to present a breakout program in Lubbock about the many different ideas chapters across our state use as they give our love and respect to those 12 ladies. I welcome as many responses as possible and will present them using the chapter and area that sent in their response. I talked to President Shalan about this request and she was very much in favor of getting this completed for the convention.

Thanks to all of you and what you do for TSO.

Cookee Johnson

Acjohnson62@att.net

This, our red rose symbol, we hold dear,
We'll tear it very gently now
So its velvet petals can recall the names
Of founder who were drafters of our vow.
We'll place the petals in this vase
And name a quality of each
May our aim be--to use one every day
For they are goals we want to reach.

Members begin to tear petals from rose and place
in vase.

1. This petal is for Annie Webb Blanton
with creativity, and determination
She held a glimpse of the future,
Our founder,
A true red rose.
2. My petal bear the name of Mamie Sue Bastian
Optimistic
Involved with those around her
That was Mamie Sue.
3. My petal is named for Ruby Cole
She was a planner
a steadfast worker,
very needed qualities today.
- 4 Mabel Grizzard is the name on my petal.
A lover of home,
and Community,
others were always first with her.
5. Anna Hiss is the next petal.
Music and poetry
were her hobbies.
Physical fitness her vocation.
6. Ray King is a special petal
She represents a sense of humor,
known for her witiness,
She was one to be admired.
7. Sue King is the petal known as the Sweetheart
of Delta Kappa Gamma.
She was an organizer
and showed great tranquility of spirit
facing early death.
8. Helen Kock is our next petal.

Her quality is concern
for the helpless and needy.
Something we need to follow, today.

9. Ruby Terrell Lomax the petal for our vagabond.
A lover of folk literature and music,
she traveled the nation with her husband
to preserve it.
10. My petal is named Cora Martin.
With this petal I place the quality of resolve,
the desire to succeed.
11. Lalla Odom's petal represents
perserverance and
love for all man kind regardless of
race or sex.
12. Our last petal is Lela Lee Williams
She was joiner and and doer.
Her petal represents
service.
(The jar is close and Mrs Reuther reads)

Yes we have twelve great women
Twelve women with deversified gifts.

Let Fate do her worst; there are relics of joy
Bright dreams of the past, which she cannot destroy;
Which come in the night-time of sorrow and care,
And bring back the feature that joy used to wear.
Long, long be my heart with such memories filled,
Like the vase in which roses have once been distilled-

You may break, you may shatter the vase if you
will,
But the scent of the roses will hand round it
still.

Yes like the fragrance of the rose petal,
May we, tonight, pick one of these qualities
And try to live up to the goals our founder set.

Beta Rho Chapter

Founders Day Celebration May 2, 2022

On May 11, 1929, a group of women educators met in Austin, Texas to establish the Delta Kappa Gamma Society. The driving force behind this effort was Dr. Annie Webb Blanton. Over the next several decades, these founders worked to establish chapters throughout Texas and to spread Delta Kappa Gamma into other states as well.

From this beginning, the Society now has 235 chapters in Texas with chapters in all the other states and the District of Columbia. There are chapters of Delta Kappa Gamma in 17 foreign countries also.

The founders were dedicated women who had strong beliefs in the goals and ideals of Delta Kappa Gamma. They were also dedicated educators committed to improving the roles of women teachers and in gaining recognition of women teachers as true professionals.

Today, we will honor our founders according to their influence and role in three areas of education—elementary teaching, secondary teaching, and college teaching and administration.

A large candle will be lighted representing each of these three areas of education. The first candle will represent elementary teaching. After the founder's names have been read, will each of you who now teach or who once taught in the elementary grades please come to the table and light your candle from the large candle. Then move to the designated area in the room where like teachers of the three areas of teaching will assemble. We will do the same for the other two areas of education—secondary and college.

1. The first candle is lighted in memory of:

Lela Lee Williams, who taught in the elementary grades of the Dallas
ISD.

and

Dr. Cora Merriman Martin, who taught elementary grades in Munday,
Paducah, and Ft. Worth.

2. The second candle is lighted in memory of :

Ray King who taught history at Central High School in Fort Worth

Sue King who taught Latin at the high schools in Denton and Mineral
Wells

and

Lalla Odom who taught math in the secondary schools in Austin

3. The third candle is lighted to represent the vast contributions to
higher education and school administration made by many of the
founders. We light this candle in memory of:

Ruby Cole who worked in the elementary schools and as principal in
the San Antonio ISD

Mamie Sue Bastian who worked in the elementary school and as
principal in the Houston ISD

Mable Grizzard worked in the upper elementary grades and
elementary principal in Waxahachie ISD

4. Although some of the founders taught in various colleges and
universities, the remaining four founders made their greatest

contributions to education while on the faculty of the University of Texas at Austin. This flame also honors the contributions of:

Dr. Helen Koch- instructor of psychology

Dr. Anna Hiss-professor of physical education

Dr. Ruby Terrill Lomax-associate professor of classical languages and dean of women

Dr. Annie Webb Blanton-professor of educational administration, state superintendent of schools in Texas

May the flames of all our candles signify the honor we pay to our founders for their dedication, commitment, and service to women in education, and the dedication commitment and service each of you now give, or once gave as women educators.

(All members will extinguish their candles at this time.)

Our Founders of Delta Kappa Gamma

Answer:

12 Special Women

**Our symbol of a beautiful
creation from nature that
reflects beauty of mind
and spirit.**

Answer:

Red rose

"For five years she was enrolled as a Special Student without credit for the courses before she was permitted to enter the junior year as a regular candidate for a degree. She began her college training in 1890 and was graduated in 1899 with the degree of Bachelor of Literature." In 1901, she began teaching English at North Texas State Normal School in Denton.

Answer:

Dr. Annie

Webb Blanton

While she taught at the University of Texas, she lived in the Faculty Women's Club where she and Dr. Annie Webb Blanton frequently discussed plans for the founding of Delta Kappa Gamma. She played a key role in advising Dr. Blanton concerning the *Constitution*, initiation ritual and program of work. She also polished Dr. Blanton's lyric for the "Delta Kappa Gamma Song" .

Answer:

**Dr. Cora M.
Martin**

Delta Kappa Gamma's first initiation

Answer:

May 11, 1929

**She worked for a diploma from
the North Texas State Normal
School in Denton, where she was a
pupil of Dr. Annie Webb Blanton.**

Answer:

**Miss Mabel
Grizzard**

"When she entered a room, laughter came in, too; for she was the epitome of buoyant living, of the humorous remark, of infectious optimism."

It is not surprising that Dr. Blanton selected her enterprising friend to share in establishing The Delta Kappa Gamma Society in 1929.

Answer:

**Mamie Sue
Bastian**

Has a gold ellipse. Across its center are the Greek letters ΔΚΓ. Above them is a wreath of laurel leaves symbolizing the distinction which those who wear this key have achieved. Below the letters cup which represents knowledge.

Answer:

DKG Key

While a student at North Texas State Normal School in Denton, she was distinguished for her proficiency in languages and history. She and Annie Webb Blanton came to know, admire and respect one another, and their friendship deepened and continued through the years.

Dr. Blanton recognized in her the kind of teacher that she hoped to interest in Delta Kappa Gamma.

Answer:

**Miss Sue
King**

She was instrumental in the establishment of the professional degree for physical education and the program for the preparation of teachers in the physical education field."

"In selecting Founders for the Delta Kappa Gamma Society, Dr. Blanton sought a broad cross section of the teaching profession. The inclusion of this founder augmented the diversity of educational interests represented."

Answer:
Dr. Anna
Hiss

President's
Theme for
Shalan's
2021-2023
Biennium**

Answer:

JOURNEY

Which way will you go?

She became interested in music at an early age and began studying piano when she was eight years old. She spent many hours over the next fourteen years practicing and developing her skills.

In 1942, she became professor of child psychology.

Answer:

**Dr. Helen L.
Koch**

She knew Annie Webb Blanton as a school mate in La Grange. Ambitious and quick of mind, she obtained a B.A. degree by the age of seventeen.

In 1917 in Austin, Tx, at the close of the school she was notified that it was contrary to the policies of the Board of Education to issue contracts to married teachers. The superintendent supported her position because of the discriminatory regulation. Weeks later the Board reversed its ruling. She became one of the first married woman teachers in Austin to receive a regular contract.

Answer:

**Mrs. Lalla M.
Odom**

Answer:

The Delta Kappa Gamma Crest

The top portion of the crest represents leadership. The cup of knowledge and the laurel wreath representing achievement are also found on the key pin. The torse below the laurel wreath on the crest represents inspiration. The lamp of learning, the rose, and a book are found on the crest. Finally, the name of the Society, in Greek, completes the crest.

She was already recognized for her work in school and civic affairs when she was invited to become a Founder of Delta Kappa Gamma. In San Antonio she commanded respect from women's clubs, from business men and the Chamber of Commerce. With these alert citizens she had worked to improve the community that it might be more appealing to tourists as well as to those who called it home.

Answer:

Ruby Cole

The day The Delta Kappa Gamma Society held its first initiation ceremony, the Founders elected her treasurer. Her duties involved looking after the expenditures and recipes for both Alpha State Organization and the national Society.

She loved to travel and toured throughout the United States, Canada and Mexico. She found personal joy in meeting new people and learning new information to enliven her history classes.

Answer:

Miss Ray

King

**Red stands
for this.**

Answer:

Color for courage

She taught Latin for nine years at Dallas High School.

With her intellectual acumen, creativity and steadfastness of purpose, it was fortunate that she could join with the other key persons in founding The Delta Kappa Gamma Society.

**ZETA ALPHA CHAPTER
DELTA KAPPA GAMMA SOCIETY INTERNATIONAL
HATS OFF TO FOUNDERS**

Action Part of Program

Directed by Sherry Klien, Chapter Vice President

Founder's Day 1994

Founder's Day Ceremony included story of the founding of Delta Kappa Gamma Society.

Members grouped themselves in order to make twelve (12) fairly even groups.

Each group drew a card containing the name of one of the founders along with her a biographical sketch.

Each group reviewed the biographical sketch of their founder and was challenged to design, make and have modeled one hat that depicted the life of the founder the group was to present.

Laid out in another room was a myriad of hats and every imaginable embellishment. Members could pick and choose until their hearts content, but a reasonable time limit was established.

When the time was up the fashion show began. One member of the group modeled the hat while another member of the group read the biographical. The hat was then placed on a shelf.

At the conclusion of the Hat Show, numbers were placed in front of each hat and all Society members had to match numbers of each hat to the **FOUNDER** the hat depicted. (Matching sheet attached.)

After the TEST, correct answers were given for checking purposes.

This activity was fun, creative and helped members remember several important facts and impressions about our founders. Try it!! Your club members will benefit from it as well!!

Submitted by: Ann Nell Gann, Zeta Alpha Chapter

FOUNDERS OF DELTA KAPPA GAMMA WITH ITEM REPRESENTATIVE OF
EACH AND BRIEF BIO-SKETCH

1. Helen L. Koch - ATLAS or globe or world map. Conducted valuable study resulting in book entitled "Twins and Twin Relations". Received national notice - awarded medal by American Psychological Association for distinguished contribution to the field of Developmental Psychology. World traveler - Egypt, Spain, Portugal, taught at University of Frankfort, Germany. Obtained Doctor of Philosophy.
2. Ray King - Accounting book . Known for keeping excellent financial records of new association as well as her church and other civic organizations. After retirement - did reading and needlepoint.
3. Anna Hiss - Tennis racket and balls. Taught U.T. 1918 - 1958 - P.E. Recognized internationally in that field. Many interests - high energy - founded League of Women Voters in Austin.
4. Mamie Sue Bastian - 4 dozen red roses . Worked to establish the teachers retirement fund, organized Houston Teachers Association which resulted in sizeable payrise for teachers - forceful when necessary - yet believed that teachers needed "fun and frolic" Decorated with "lovely appointments" - once ordered four dozen red roses and "at least a hundred red and gold(or yellow) balloons for decorations in 1932 for meeting. Planned unusual meetings/parties. Organized Houston Principals Assn. At least one school named for her.
5. Sue King - Top hat . Gifted in ability to organize . Personable, brilliant intellect (Phi Beta Kappa). Taught Latin and history - died young - one year after helping to organize Delta Kappa Gamma. Top hat because on Dec. 2, 1917 a newspaper column stated "Hats off to the women!..... Texas teachers made a new high record. The men did not launch the movement; the women teachers did. They organized, they launched a campaign for Mrs. Barry and they smashed a dozen slates made by the old veteran slatemakers of the State Teachers Association..... Three ...high school teachers are responsible for this

movement.Now a woman will wield the gavel and men must take orders." One of the three high school teachers was Sue King.

6. Ruby T. Lomax- Wedding veil. At Founders Day celebration at Ft. Sam - speaker said this lady was responsible for bringing an end to the policy of husband and wife not being able to work on the same campus. Result of her marriage when she was Dean of Women and Asst. Prof of Classical Languages at U.T. Married John Lomax - registrar at U.T. Both worked together on campus for three years - unheard of before. Received B.A. - U.T.in 1906 - at that time, highest grades ever achieved by a woman - graduating summa cum laude. Elected to Phi Beta Kappa.

7. Cora M. Martin - Sunbonnet and flowered hat . Life of bittersweet years. pain and courage . Born Chico, Tx. married and lived when married on ranch where Indians had once raided and had taken hostages. Death of husband and infant daughter before she was twenty years of age. Later went to U..T. - received Ph.D. in Music and Elementary Ed. Enjoyed Austin Society in later years - entertained - delighted in social life - never remarried. Taught 26 years in Education dept. at U.T.

8. Lalla M. Odom - spade and gold key. When organization's charter was presented to Texas Secretary of State - name had been Kappa Gamma Delta and Lalla was one of three founders who merely rearranged Greek letters to Delta Kappa Gamma as another national organization already was using the original Greek letters. Had legislation interests - turned first spadeful of earth at groundbreaking for Headquarters Building in 1955. Presented a gold key to signify the debt-free building at the dedicatory ceremony. Was also influential in obtaining building site for Headquarters Bldg.

9. Mabel Y. Grizzard - large antique bottle, figurine, bowl or pretty glass. Lived and traveled w/sister and mother - when last died - home was "crowded with their treasures". Was teacher and principal at same school in Waxahachie for over 40 years. Impressed Ms. Blanton with perseverance in keeping abreast of teacher training methods. The two women shared an interest in rural education Mabel was elementary supervisor for two years while Blanton was State Superintendent. of Public Instruction in Texas.

10. Lela Lee Williams - Banner or silhouette of sufferagette . Dr. Blanton relied heavily upon Williams' assistance for new school legislation - window cards, posters and pennants placed in post offices, school houses and stores. Amendment passed. Particularly interested in status of women. Instrumental in helping to convert elementary teaching into as professional a type of work as secondary instruction.

11. Ruby Cole - Replica of the Alamo or state Historic Landmark sign - or spanish dancing costume. . Interests included restoration of missions, establishment of parks, purchase of state landmarks of historic nature in and near San Antonio, a public library, the archives, civic festivals and the adequate financing of public schools (as well as parochial) in a day when school support was not popular topic. Identified with both professional and lay people - commanded respect from business men, women's clubs and

the Chamber of Commerce. . Gracious entertainer - collector of Texas history.
Organized Beta Chapter in San Antonio less than two months after the national Society
had been established. Many years a teacher and principal.

12. Annie Webb Blanton- cap and gown - Began teaching at age 17 at county school at Pine Springs in Fayette County. Moved to Austin year later, attended classes at U.T. in free hours and during vacations while teaching in elementary schools and Austin High School. Graduated 1899 with Bachelor of Literature. 1916 - elected first woman to be chosen as president in TSTA. 1918 was elected State Superintendent, first woman to break that female political barrier. Accomplishments of those four years included : doubling local taxation for school support, a system for state-wide distribution of free textbooks; a fifteen percent increase in length of school term, special legislation to improve rural schools and vocational work; increase in salaries. Upon three occasions - 1917, 1919, 1921 - was elected one of vice-presidents of NEA. M.A. at U.T. - taught there in School Administration. Doctorate. of Philosophy from Cornell - returned to U.T. in 1927 and in 1933 advanced to rank of Professor of Rural Education - the third woman to receive this rank at the University. A dorm at U.T. named for her, as well as an least one public school. Liked to wear earrings as she said "They always seem to me to express the frivolous side of my nature". Appeared dignified and usually reserved. Enjoyed relaxing with mystery novel, or shopping for another miniature donkey to add to her collection. Resolved in 1929 to form an organization to help to remove the barriers limiting the advancement of women educators. Convinced eleven other women of the potential of such a medium of improvement and laid plans for their consummation on May 11, 1929.. In 1945 when passed on - had seen Delta Kappa Gamma grow from 12 to 23,000 members, from one state group to 49 state organizations with 625 chapters. Buried in family plot in historic Oakwood Cemetery in Austin.

D K G
FOUNDERS'
QUILT

Annie Webb Blanton

A quilt, made of layers of fabric with a soft substance in between is very much like Delta Kappa Gamma. Our DKG quilt was designed by:

Dr. Annie Webb Blanton

on May 11, 1929 in Austin. For being the quilt designer whose stitches held our Society together, we add a needle and thread.

Mamie Sue Bastian

Mamie Sue Bastian was our founder who initiated the idea for the birthday luncheon. One of her favorite decorations were red and gold balloons tied to the chairs along with red roses and candles on the tables. We add to our quilt red and gold balloons to represent Mamie Sue Bastian.

Ruby Cole

She was recognized as a leader in the community of San Antonio. She was well known as methodical and thorough because Ruby felt everything we do must be perfect in every detail. Because of her devotion to restoration of the Missions, we add a mission known as the Alamo to our quilt to represent Ruby Cole.

Mabel Grizzard

Mabel was a dedicated educational leader that brought leadership to the Society as a founder. She wrote courses of study for elementary grades. She loved the social life and friendships that came from being elected chairperson of many organization. Mabel was very active in her church so we add a cross to our quilt.

Dr. Anna Hiss

Anna was a member of the University of Texas faculty who believed strongly in a program of physical training for all female students. She was always dressed impeccably and enjoyed basketball and horseback riding. Because of her work on behalf of physical education, we add a basketball to our quilt to represent

Dr. Anna Hiss

Ray King

Ray was the first treasurer of the Society. Dues at that time were \$4.00 a year. "The office of treasurer carries great responsibility and I'm proud to serve our newly formed organization. My favorite hobby is "figgerin" and the joy of balancing the books each year. "We add a dollar to represent Ray King.

Sue King

Sue King and her sister Ray loved to travel. She inspired her students to be responsible citizens in her history classes. Sue had a bubbly personality, enjoyed needlepoint, reading, and preparing exotic foods. Her quilt square shows her enjoyment of hiking in the mountains.

Dr. Helen L. Koch

Helen was an accomplished pianist whose plans to become a concert musician were changed when she became interested in and studied child psychology in Chicago. She was a professor at the University of Texas when she was invited by Dr. Blanton to assist in founding the Society. Originally active in

Alpha State, she returned to Chicago to become the founder of the Lambda State Organization. Dr Koch had a great love of music so her quilt square is represented by a treble clef.

Ruby Terrill Lomax

Ruby was Dean of Women at the University of Texas when she participated in the founding of Delta Kappa Gamma. In counseling with students, she was always gentle and reasonable but firm, known to “hold the line.” She enjoyed sharing folklore so her quilt square is a folklore book.

The Mitten

JAN BRETT

Cora M. Martín

Cora was a UT professor of elementary education whose methods of teaching reading were aimed so the lessons were based on factual situations related to childhood. She began her service to Delta Kappa Gamma while writing a series of five books named Real Life Readers. Dr. Martín was the author of "The Song" that she polished the

*lyrics and fitted the words to the
tune “Men of Harlech”. We sing
this at every chapter meeting . It is
better known as “The Delta Kappa
Gamma Song”. To represent*

Dr. Cora M. Martín

we add a quill and pen to our quilt.

Lalla M. Odom

Lalla came to the Society in Austin as as a junior high teacher of math and a desire to banish discriminations against women in the profession. She exerted a great deal of influence in Austin and persuaded Gov. Dan Moody to withdraw his bid on the lot for DKG headquarters. Mrs. Odom became one of the first married women teachers in Austin to receive a

regular teacher's contract. *Lalla Odom's* quilt square has an open gate on it because her friends knew if her gate was open she was home and they could find friendship and advice.

Lela Lee Williams

Lela was a leader in the Better Schools Campaign when she met Dr. Blanton. Under her leadership as the first president of the Dallas Grade Teachers Association, she demanded that increased efficiency in teaching methods must be met with higher salaries. Her voice and activities for teachers led to pay increases as well

as interest in education. As a lover of wildflowers she enjoyed studying trees and flights of birds. We add a bluebonnet to our quilt squares to represent:

Lela Lee Williams

As in any new organization, Dr. Blanton and her colleagues selected colors, symbols, and purposes to bind the Society together. We add a rose, a key pin, and the coat of arms to our quilt.

Much has changed in our world since 1929: the way we dress, technology, and our many modern conveniences. Much has changed in Delta Kappa Gamma as well. Our

Our Society is now well established in 18 countries around the world. We focus less on the colors and symbols and more on the values they represent. However, we are still bound together by the carefully conceived quilt squares and the stitches that Dr. Annie Webb Blanton and the 11 other founders lovingly added to form our magnificent Society. May we always be bound by

their common vision: “bringing together qualified and diverse women educators serving in a broad spectrum of educational fields, strengthening them, and pursuing worthwhile projects that make a difference in communities around the world.”

QUESTIONS FOR MAY FOUNDERS DAY PROGRAM

Each team has received 3 names of founders. Starting with one team, they will place their names on the founder's picture. As judges, tell them how many they got right and which ones to remove. Have them remove the wrong names. Then, next team will put their 3 names up. ...and Judges tell them which are correct and which to remove.

AFTER all have completed the first round, let the teams have a second try at getting their names right.

Judging? Give 3 points for each correct answer on first try. 2 points for correct identification on second try. IF takes a 3rd try to get names right, 1 point for each on that round.

Settle in, your teams are filled with experts, these questions can be discussed and when you are ready to answer, hold up your color card. First card up will be called on to answer question. If you are incorrect, one other team will be offered the question to answer if they so choose. IF you are correct, you will receive 2 points. IF the second team is correct, they will receive the 2 points.

Of these 12, which of these women were from Fort Worth? **Sue & Ray King**

The sisters lived together on the southside of FW with their mother. Both taught history for the Fort Worth ISD.

Which Founder wrote books on punctuation, composition and correct grammatical usage? **Annie Webb**

Her book Advanced English Grammar, published in 1928. Mable Grizzard authored work books on grammar for grades 5 through 8.

Who conducted studies on the psychology of children and was a world-wide expert on the psychology of twins? **Helen Koch (Coke)**

Dr. Helen Koch lectured and taught in Germany shortly after World War II and was instrumental in the establishment of child care centers there and in the US which were the first centers to require trained workers.

Who's husband and infant daughter died within two years of her marriage? **Cora Martin**

Dr. Martin married her high school sweetheart shortly after graduating from high school. Within a year their baby daughter died and then Robert died the following year. Cora began her teaching career after these tragedies, first in Munday, Paducah and FORT WORTH.

Which Founder was totally involved in saving the missions of San Antonio, including the Alamo. **Ruby Cole**

Miss Cole, a lifelong resident of San Antonio, lived with her mother and led in the restoration of the missions, establishment of city parks and a city library.

Which was keenly interested in Legislation and was often willing to go to Austin and speak to the legislators for Dr. Blanton? **Mamie Sue Bastian**

When the first teacher retirement bill was floundering in the Legislature in Austin, this Founder received a phone call from Dr. Blanton telling her to put on her prettiest dress and get up to the capitol in haste! -- Miss Bastian even threatened to "turn some of the men over her knee and give them a spanking" if they didn't vote for the bill.

Simply because she was married, who was refused full pay, but would be hired to teach full time on a substitute's lesser pay ? **Lilla Odom**

As was often the case, in the early 1900's, school districts did not employ married women. However, Mrs. Odom was such an outstanding math teacher, they wanted her but offered her substitute pay, even though she was to be expected to be there every day of the school year. She refused and a few weeks later, the Austin Independent School District relented and hired her as the first married woman to teach in Austin, Texas with full pay.

Which Founder traveled across the US with her husband, recording folk songs from Appalachian Mountain people, American Indians, Negroes, lumber jacks and share croppers? **Ruby Terrill Lomax**

John Lomax had a national reputation as an expert on folk music. They spent months crisscrossing the US as he recorded songs, conducted interviews and collected music. Ruby helped record all these items. He is responsible for the discovery of famous blues singer, Led-belly. Today his collection is housed in the Smithsonian.

Who was the last Founder to die? **Ray King**

Ray King, of Fort Worth, lived along on Willing Avenue after the death of her sister and mother, until January of 1979 when she died at the age of 91. Interestingly, her sister Sue, also a Founder, was the first to die, less than a year after the founding of the Society.

Who had a sister invited to be a founder, but their mother was ill and one daughter had to stay home to tend to mother. so "sister missed her chance." ? **Mable Grizzard**

Mable Grizzard's sister, Eva, like Mable was a life-long "old maid teacher" in the schools in Waxachachie, Texas. Both served many years as principals at two elementary schools. Both were proclaimed Women of the Year, or First Lady of Waxahachie, Mable in 1953 and Eva in 1957. The district's board room was official named the Eva and Mable Grizzard Board Room in their honor in 2010.

Let's take a time out for a word from our sponsor, Texas State Organization. (Area AC gave commercial on upcoming state convention.)

Whose parents moved to Denton so daughters could attend NT Normal School--now, UNT and were students of Miss Blanton's while there? **The King sisters**

Also, Mable Grizzard and her sister Eva were students of then MISS Blanton when she taught at what would become University of North Texas.

Who was trained as a concert pianist and began each day EARLY in the morning warming up with Bach? **Helen Koch**

Other founders who lived at the Faculty Women's Club on the Univ of Texas campus stated numerous times that sometime between 4:30 and 5:30 each morn, she would rise to practice her piano, as it "helped her to think clearly and started the mornings with beauty."

Who is considered a founder of Illinois? **Dr. Koch**

Shortly after DKG was chartered, Dr. Koch was offered a position at the University of Illinois, which she accepted. In March of 1935 she became one of the founders of Lambda State Organization.

Who was the head of the University of Texas Physical Education Department? **Anna Hiss**

Anna, had a passion for physical fitness and was a star basketball player and became head of the University of Texas Physical Education Department. She was instrumental in establishing degrees for physical education as well.

Who taught humorist Will Rogers while she was teaching in Oklahoma? **Odom**

As a teacher of music and mathematics in Vineta, Oklahoma Lila Odom had Will in her music class and remained a close friend till the tragic end of his life.

17. Who was first woman elected as state superintendent of schools in Texas? **Blanton Dr Blanton was an expert in rural education and was the first woman elected to a statewide office in Texas. She fought for free textbooks and secured a 54% increase in teacher salaries.**

One founder wrote a series of books for first grade readers-- The Bob and Nancy series.
Cora Martin

Her reader series was based on the premise that content should be meaningful to children and using a controlled vocabulary, she created the Bob and Nancy series that was used Texas, Louisiana and Alabama as the adopted readers in those state, plus many districts in other states used them as well.

Who was dean of women at ETSTeachers College, Commerce and later moved to UT-Austin as Dean of Women. **Lomax**

She served as Dean of Women in Commerce for 6 years and then 12 years as Dean of Women in Austin prior to her marriage to John Lomax.

Which founder was elected by TSTA (Texas State Teachers Association) as their president in 1920--becoming the first classroom teacher and the second woman to serve in that capacity in Texas. ---**Lela Lee Williams**

A quiet, determined woman from Dallas, she taught for 45 years in the Dallas ISD and was instrumental in organizing the Dallas elementary teachers into an organization, The Dallas Grade Teachers Association.

.If Miss Williams was the second woman to serve as president of TSTA, Who was the first woman elected president of TSTA? **Blanton**

Annie of course.

Which Founder was creator of Birthday Luncheon and wanted balloons, laughter, music and roses to be everywhere.? **Bastian**

Yes, fun loving Mamie Sue Bastian. It was said when she walked into a room, the laughter followed her in through the door.

Which founder was an expert in "rural education" and worked for Dr. Blanton in that aspect when Blanton was State Superintendent of Education. ? **Mable Grizzard**

Mable was convinced that the common water dipper in a bucket used in most rural schools was the conveyor of many of the diseases the children contracted. Her insistence on removing the dippers resulted in a public health law

You've been given a tablet and pin. Would you please write your answer to these questions on the tablet and hold it up so the judges can see. Yes, as before, you may confer to determine your answers.
