HISTORY OF DENTON

Denton, the county seat of Denton County, is on Interstate Highway 35 where it forks to become 35E to Dallas and 35W to Fort Worth near the center of the county. Less than forty miles north of the cities, Denton has become closely associated with the Dallas-Fort Worth metropolitan area. The city was not an early settlement. It was founded in 1857 in order to become the county seat, because residents wanted one located near the center of the county. Hiram Cisco, William Woodruff, and William Loving donated 100 acres as the site for the town, which, like the county, was named in honor of John B. Denton.
