

## Recommitment Ceremony

The purpose of a recommitment ceremony is to reflect back to the date when we were initiated or inducted into Delta Kappa Gamma Society International. For some it may be fifty plus years; others, just a few. The idea of recommitment may be compared to a married couple repeating their wedding vows on a special occasion such as a 25<sup>th</sup> or 50<sup>th</sup> wedding anniversary. It is a solemn and soul-searching moment meant to refresh, revive, or reminisce the feelings first experienced as one made the decision to commit to another.

In Delta Kappa Gamma at the time of our induction we committed to “contribute to the Society by participating; sharing... interests, and talents, and professional expertise; and seeking opportunities to grow personally and professionally”.

If this is your desire in this recommitment ceremony, would you place the fingers of your right hand on your member key pin (if available) and repeat after me:

Leader: I am willing to continue my responsibilities in The Delta Kappa Gamma Society International.

Members: Repeat.

Leader: I will contribute to the Society by participating; sharing my interests, talents, and professional expertise.

Members: Repeat.

Leader: I will seek opportunities to grow personally and professionally.

Members: Repeat.

Leader: May your future in Delta Kappa Gamma be delightful and fulfilling.

Toni McCutchen
