

# GOAL STATEMENT EXEMPLARS

As an English major and history minor in my undergraduate studies, I find that this program contains many opportunities for learning about an area which I have never explored.”

The theory and concepts of Mathematics have already enhanced my teaching strategies and my evaluations by my current administrator have been increasingly positive and I have approached the “Distinguished” level under the TTESS state evaluation system.”

“I will present a program on the Asheville trip to my chapter and include a quick, hands-on lesson. When substitute teaching I often give a mini-lesson in art.”

My goal is to broaden my understanding of these varied cultures. This is an exceptional learning opportunity to expand my horizons. This journey will be a lifelong personal benefit for me
